

## PRESS RELEASE

### **FALCK RENEWABLES S.P.A. STRENGTHENS ITS TEAM: MICHELA BAMBARA IS THE NEW CHIEF DIGITAL AND INFORMATION OFFICER**

**Milan, June 14, 2018** – Falck Renewables S.p.A. strengthens its team with the arrival of Michela Bambara, new Chief Digital and Information Officer, who will be in charge of pursuing the digital transformation of the Company and its subsidiaries.

Graduated in Engineering at the Politecnico di Milano, with a Master in Strategic Management of ICT, Michela has many years of experience in digital transformation projects and technological innovation supporting business processes.

She began her career in 2000 in some of the most important consulting firms, and then took over managerial roles in major Italian utilities in the energy field.

In Edison, she was responsible for the ICT development of the commercial area at the time when the company was entering the mass market following the liberalization of the energy sector. Since 2010, she has been Head of Demand and Project Delivery in Snam, dealing with digital transformation with particular focus on Operation projects.

*"Falck Renewables has started an important path towards digital transformation that today knows a further acceleration thanks to the arrival of Michela. We wish her every success in her new job" commented Toni Volpe, CEO of Falck Renewables. "Her experience will allow us to benefit from the great opportunities that digitalization offers to the energy sector. The collection and analysis of data as well as the integration of the ecosystem between producers and consumers can actually facilitate the creation of new processes and services".*

Falck Renewables aims at enhancing female leadership and recognizes its added value in the creation of new managerial models.
