

## **FALCK RENEWABLES WON 40 MW IN THE SPANISH TENDER**

**Milan, Italy, January 27, 2021** - Falck Renewables - through its subsidiaries Falck Renewables Power 2, S.L.U. and Falck Renewables Power 3, S.L.U. - has been awarded two lots, for a total of 40 MW related to its own photovoltaic projects, within the tender celebrated by the Spanish government on January 26, 2021. This award ensures a fixed price for the sale of energy during 12 years. One hundred companies participated in the Spanish tender, the first to be regulated under the new incentive mechanism for renewables launched last November, and over 1500 bids were submitted. The auction was open to all sources, with quotas allocated to PV and wind.

This important result is part of a broad development plan of Falck Renewables in Spain, where the Group has a pipeline of about 700 MW with grid connection rights, part of which is already in the planning phase.

\*\*\*

*Falck Renewables S.p.A., listed on the Italian stock exchange in the STAR segment ("FKR.MI") and included in the FTSE Italia Mid Cap Index, develops, designs, builds and manages power production plants from renewable sources, with an installed capacity of 1,196 MW (1,159 MW according to the IFRS 11 reclassification) in the United Kingdom, Italy, United States, Spain, France, Norway and Sweden, using wind power, solar power, WtE and biomass technologies. The Group is a global player in the renewable energy technical advisory and asset management services business, through its wholly owned subsidiary Vector Cuatro, providing asset management services to clients accounting for approximately 3,000 MW of installed capacity and with experience in more than 40 countries. Moreover, Falck Renewables provides highly specialized energy management and downstream services to both energy producers and consumers.*
