

Falck Renewables included in 2022 Bloomberg Gender-Equality Index

Milan, Italy, 26 January 2022 – Falck Renewables today announced that it is one of 418 companies across 45 countries and regions to join the 2022 Bloomberg Gender-Equality Index (GEI), a modified market capitalization-weighted index that aims to track the performance of public companies committed to transparency in gender-data reporting. This reference index measures gender equality across five pillars: female leadership & talent pipeline, equal pay & gender pay parity, inclusive culture, anti-sexual harassment policies, and pro-women brand.

“For the second year in a row, we are part of Bloomberg’s Gender-Equality Index, improving our disclosure and general score. Our inclusion demonstrates our commitment to transparency and to promoting gender diversity and equality, which is one of the objectives of our Sustainability Framework outlined in our 2020 Sustainability Report”, commented Toni Volpe, CEO of Falck Renewables.

For more information on the GEI and how to submit information for next year’s index visit:
