

## PRESS RELEASE

### **“Città della Salute” and civil proceedings: no involvement of Falck Renewables Spa**

#### **Denial of press news**

Milan, 3 December 2017 - With reference to press news published today, Falck Renewables S.p.A. - together with its subsidiaries - informs that it is not involved in the civil proceedings initiated by Milanostesto S.p.A. against Falck S.p.A. mentioned by the same article. Unrelated to the so-called “ex Falck” areas as well as to any steel sector activities, Falck Renewables represents one of the leading producers of energy from wind, solar, biomass and waste-to-energy at European level in the renewables energies sector.

***Falck Renewables S.p.A.**, listed in the STAR segment of the Italian Stock Exchange, develops, designs, builds and manages power production plants from renewable energy sources. Falck Renewables consolidates installed capacity of 858 MW in 2017 (821 MW according to the IFRS 11 reclassification) in Italy, United Kingdom, Spain, France, and produces more than 2 billion KWh of energy per year, generated by wind, solar, biomass, and waste-to-energy technologies. Through its Madrid-based, wholly owned company Vector Cuatro, Falck Renewables delivers commercial and technical asset management, engineering, and M&A advisory services with a track record exceeding 1.7GW of solar and wind and presence in 24 Countries worldwide.*
